NEW ZEALAND'S MOST POPULAR & LARGEST SELLING FORAGE WAGONS

# Giltrap

## PRECISION ENGINEERED FORAGE WAGONS CROSS CONVEYER AND CENTREFEED MODELS AVAILABLE

Self-releasing back gate for rear unloading.

Adjustable cross conveyor bed with priority oil flow.

Giltrap Engineering continue to lead the way in the development of Silage Feedout Wagons throughout Australasia with the release of their exciting new range. All of the features that Giltrap have provided for many years including smart design, quality engineering and the best hydraulic system in the marketplace, not to mention excellent after sales service and support are evident in the new wagon range, as well as a host of exciting new features that exceed the tough operating conditions of today. The Giltrap reputation for quality and the efficiency of their products is clearly evident in both the operation and construction of these machines.

### All Models Now Feature:

- Stainless steel sides for corrosion and wear resistance
- Hydraulic load sensing
- Self-releasing back gate - opens automatically when bulk unloading
- Central greasing system for difficult access bearings
- Bolt-on floor and elevator bars for simple maintenance
- Cast iron bearings for long life
- Mesh front screen and mesh back gate for good visibility
- 35mm treated pine T&G floor for extra durability

### Cross Conveyor Model Features:

- Extra wide 900mm conveyor belt - reduces the risk of blockage
- Adjustable conveyor belt assembly - gives an extra 250mm reach if required
- Direct hydraulic motor drive with priority belt speed control

### Optional Accessories:

- Electronic load scales
- Fast floor kits for bulk rear unloading on larger wagons
- Round bale cradle - assists in feeding round bales
- Side Ladder
- Cross conveyor extension - independent 1m belt for extra height and reach, complete with lift ram
- Harvesting accessories - includes high sides, roof and cover assemblies, swivel hitches and raising blocks
- Tandem axles for smaller wagons
- Brakes

All of these great features plus many more mean a Giltrap wagon is going to give you the best service of any on the market. If you need a reliable machine with more than 40 years of development in its design, a machine that will give you trouble free service year after year, with a full 12 month warranty and the best backup service around, then you need to take a very close look at Giltrap.
