U 600

Production code	421.124/125
Wheelbase (mm)	2250
Engine output kW (DIN/hp)	38 (52)
Permissible gross vehicle weight (tons)	4.2
Approx. unladen weight (tons)	3.0
Speed range (km/h) approx.	0.10-62.0

The Unimog 600 is the smallest four-wheel drive tractor of the Unimog range, it has all the advantages of a proven design.

Above all, its dimensions, (length, width, track) make it ideal for agricultural and forestry work. Its low fuel consumption and running costs result in a high level of economy. For loads of up to 1.2 tons, it is the ideal implement carrier. The driver has a good view of all front, rear and platform-mounted implements from his well-protected position in the cab.

U 800

Production code	403.122/123
Wheelbase (mm)	2380
Engine output kW (DIN/hp)	55 (75)
Permissible gross vehicle weight (tons)	6
Approx. unladen weight (tons)	3.8
Speed range (km/h) approx.	0.11-73.8

The Unimog U 800 is a medium output four-wheel drive tractor.

The versatility of the U 800 and the low fuel consumption of its 4 cylinder engine make it an economical farm tractor. Moreover, for agricultural and forestry work, the U 800 is a reliable implement carrier for loads of up to 2.2 tons.

U 900

Production code	406.120/121
Wheelbase (mm)	2380
Engine output kW (DIN/hp)	62 (84)
Permissible gross vehicle weight (tons)	6
Approx. unladen weight (tons)	3.9
Speed range (km/h) approx.	0.11-73.8

The Unimog U 900 has been the most popular of the four-wheel drive tractors in the Unimog range for 15 years.

Reliable and sturdy, it provides excellent performance wherever reserves of power, speed and traction are required. High-performance p.t.o.'s and large axle loads make it possible to mount implements at the front, in the middle and at the rear, or both front and rear.

U 900

Multi-purpose tractor range

U 1000

Production code	424.121
Wheelbase (mm)	2650
Engine output kW (DIN/hp)	70 (95)
Permissible gross vehicle weight (tons)	6.8
Approx. unladen weight (tons)	4.8
Speed range (km/h) approx.	0.14-76.5

The Unimog U 1000 is the robust power package in the new generation of Unimog four-wheel drive tractors.

The modern, well-designed cab has all the features to provide an up-to-date working environment, on the farm and in the forest. The machine and implements are controlled from the comfortable driving position, which has excellent all-round vision. Its unladen weight and payload make the U 1000 the modern implement carrier.

U 1300

Production code	425.121
Wheelbase (mm)	2810
Engine output kW (DIN/hp)	92 (125)
Permissible gross vehicle weight (tons)	9
Approx. unladen weight (tons)	6.0
Speed range (km/h) approx.	0.15-84.4

The Unimog U 1300 is the heavy and powerful four-wheel drive tractor in the new generation Unimog range.

Its powerful engine, with exhaust-gas turbo-charger, has plenty of power in reserve. The U 1300's high payload makes it possible to work economically with the heaviest of implements. The driver's cab offers maximum comfort and easy handling.

U 1500

Production code	425.141
Wheelbase (mm)	2810
Engine output kW (DIN/hp)	110 (150)
Permissible gross vehicle weight (tons)	9
Approx. unladen weight (tons)	6.0
Speed range (km/h) approx.	0.15-84.4

The Unimog U 1500 is the heaviest and most powerful four-wheel drive tractor in the new generation Unimog range.

Its powerful engine, with exhaust-gas turbo-charger, ensures there is plenty of power in reserve. The U 1500's big payload makes it possible for it to work economically even with the heaviest of equipment. The driver's cab offers maximum comfort and easy handling.
