**MAGNATRAC**

**THE HOMEOWNER'S CRAWLER TRACTOR**

## MAGNATRAC turns hard heavy work into profit

From garden chores to landscaping duties — from small acreage to suburban home — from vacation cottage to construction site — the Magnatrac crawler tractor works Year 'round on all types of terrain and ground conditions.

With full track traction and 16 hp. valve-in-head design-cast iron engine, Magnatrac makes the most of its all-gear transmission featuring 4 speeds forward and 1 in reverse. Shift Magnatrac like a car. Maneuver with simple lever controls. Sit back and think of all the odd jobs you could turn into extra case — with Magnatrac.

Here's the BIG JOB power necessary for serious gardening, removal of deep snow, that complete landscaping project, easy transfer of awkward, heavy loads. Yes, Magnatrac can turn hard work into some easy money — for you.

## MORE workpower per dollar invested

Wheeled garden tractors simply can't match the full tracked power of a Magnatrac. Its long wheel base, balanced body weight, and earth hugging tracks combine to produce great stability. Control its tracks with an all-gear transmission and you've got your self an easy-to-drive crawler that's almost unstoppable.

Add any one of more than 30 different, efficient attachments and you've got more workpower than you ever thought possible in a tractor this size. Attachments include both high and low lift loaders with either hydraulic or electric lift systems, the 42" snow and soil blade, a 42" snowblower, full line of garden tools, and such multi-purpose attachments as the rear-mounted toolbar which can be equipped with a variety of gardening and landscaping accessories.

If it's workpower you need, it's Magnatrac you want. Magnatrac. The latest in a long line of proven, powerful Struck tractors.

## EXTRA heavy-duty construction

- 16 hp. valve-in-head, cool running, cast iron (or 16 hp. "Dyna Static" Balanced engine ).
- All-gear transmission with 4 speeds forward, 1 reverse.
- Enclosed and protected track system with side panels and center idler wheels.
- Track features #A550 chain welded to 10 gauge interlocking steel shoes — over 10,000 lbs. ultimate track strength.
- Dual track tension springs on each track — approx. 3,000 lbs. tension maintained on each track.
- Permanently lubricated ball bearings on all high speed shafts, renewable (greasable) sleeve bearings on stressproof steel axles for all slow speed, high torque shafts.
- 64" long, 40½" wide, 37¾" high — fits almost anywhere!
