Only slightly larger (by 4") than this illustration...

the super-lightweight **STIHL 020 AV**

complete with the exclusive and patented STIHL AV
antivibration system and revolutionary new STIHL *oilomatic*®-chain!

STIHL 020 AV

For the Occasional-user:

(and/or Do-It-Yourselfer)

Here it is – the finest, most advanced mini-size chain saw with greater power and cutting ease – designed and engineered for you by STIHL, the World's largest chain saw manufacturer. The 020 AV incorporates all of the famous STIHL quality and dependability found in our larger professional saws.

You'll see that the 020 AV is not a toy, but a real, fast-cutting power saw. A saw so light, and so simple in operation, that everyone can use it and cut with it like a professional.

For Foresters and Tree Specialists:

Its special design and balance makes it very convenient for even one-hand operation. It is particularly handy for use in pruning and limbing by nurserymen, arborists, landscape gardeners, foresters and farmers. A saw that is a "must" for any wood-cutting job where it is necessary to have one hand free.

Incidentally, the STIHL 020 AV also readily converts to a brush and hedge trimmer.

For Trade and Technical Users:

Workers in the construction field and in municipal departments like: Fire, Police, Rescue, Street and Park Commissions will find the STIHL 020 AV the perfect tool, when a really handy and lightweight chain saw with real power and dependability is needed.

Although small in size, this STIHL 020 AV will surprise you with its amazing power and long, trouble-free operation. No unexpected overheating and maintenance problems. It's a STIHL, World's First and Finest!
